

Release Hook for Rescue Boat/Raft – PX-02 (25kN)

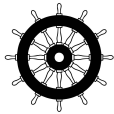

The PX-02 Release Hook is designed for safe and efficient hoisting and launching of inflatable rafts and rescue boats, in compliance with stringent SOLAS, MSC.81(70), and LSA Code standards. Ideal for medium-sized vessels, it supports davit loads up to 2,500 kg, ensuring reliable performance in both automatic and manual modes.

COD EUROSUL: 090172

IMPA: ---

Part Number: PX-02

Approvals:

SOLAS

Specifications

Features

Capacity: 25 kN.

Standards: SOLAS, MSC.81(70), LSA Code.

Operation: automatic/manual release system for controlled launch on water contact.

Benefits

Safety: prevents accidents during lifeboat release.

Reliability: consistent performance in harsh marine conditions.

Ease of use: simple and fast handling under stress.

Applications

Ideal for liferafts and rescue boats with davit systems on ships and offshore vessels.

Technical Specifications

Material: corrosion-resistant stainless steel.

Capacity: 25 kN.

Weight:

4 kg.

Dimensions: 35 × 12 × 6 cm.

Certification: SOLAS, MSC.81(70), LSA Code.
