

## Rubber Base for Steel Cylinder 6L/300BAR – RHZK

The RHZK rubber base for 6-liter/300BAR steel cylinders is an essential spare component for compressed air cylinders. It is designed to ensure the cylinder's stability and upright position, providing safety and convenience during use and storage in industrial or maritime environments.

**COD EUROSUL:** 005277

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Features:

**Function:** Keeps the cylinder upright, preventing tipping or damage

**Application:** Suitable for air systems and self-contained breathing apparatus (SCBA)

**Design:** Simple, sturdy structure for easy installation

### Benefits:

**Stability:** ensures firm and secure mounting during use

**Durability:** suitable for harsh marine and industrial environments

**Practicality:** quick installation and replacement without tools

### Technical Specifications:

**Material:** High-strength rubber

**Compatibility:** 6L / 300 BAR steel cylinders

**Certification:** ISO 23269-2:2011
