

## Rubber Heaving Ball With 8MM30M Line

The Heaving Line with Monkey's Fist 8mm x 30m is an essential maritime tool designed for efficient mooring rope deployment and man-overboard rescues. Made of a braided polypropylene rope with an 8mm diameter and 30 meters in length, it features a durable rubber monkey's fist, ensuring accurate and secure throws. Weighing 1.080 kg, it is lightweight, easy to handle, and highly effective for onboard operations.

**COD EUROSUL:** 005228

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Benefits

**Accurate Throws:** Rubber monkey's fist enables precise deployment in mooring and rescue scenarios

**Versatility:** Suitable for a range of maritime tasks, including man-overboard rescues

**High Durability:** Braided rope is resistant to abrasion and corrosion, ensuring long-term use

**Ease of Handling:** Balanced weight distribution ensures safe and efficient operation

### Applications

**Mooring Rope Deployment:** Ideal for ports, marinas, and anchoring tasks

**Man-Overboard Rescues:** Vital for quick and reliable rescue missions at sea

**General Maritime Operations:** Suitable for any application requiring rope launching or controlled throws

### Technical Specifications

**Rope Material:** Braided polypropylene

**Rope Diameter:** 8 mm

**Rope Length:** 30 meters

**Total Weight:** 1.080 kg

**Monkey's Fist:** Durable rubber
