Part Number: ---

Approvals: ---

Specifications

Benefits:

Complete kit: For testing heat and smoke detectors

Cross Air™ Technology: Efficient and damage-free heat testing

Solo 330 dispenser: Precise aerosol application

Solo 100 and 101 telescopic poles: Reach up to 7 meters

Rechargeable batteries: Greater mobility and autonomy

Solo 200 remover: Facilitates detector removal

Solo 610 case: Protects and organizes the entire kit

Specifications:

Model: Solo 851

Maximum Reach: 7 m

Test Type: Smoke, heat, and CO

Heat Technology: Cross Air Technology (CAT™)

Power Supply: Solo 770 rechargeable batteries

Charging Time: 90 minutes

Certification: UL/ULC

Total Weight: 8 kg
