

## Storz key for fast coupling 50A/65A – 1.1/2 “and 2.1/2”

The Storz Spanner Wrench is an essential tool for safe and efficient handling of firefighting hose connections. Designed for easy coupling and decoupling of Storz-type quick connectors, it is compatible with 1.1/2" (50A) and 2.1/2" (65A) fittings. Made of cast brass, it offers excellent mechanical strength and durability. The sandblasted finish enhances grip and operational safety.

**COD EUROSUL:** 001131

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Features

**Material:** Cast brass

**Fasteners:** Not applicable

**Design:** Manual operation tool for Storz 50A/65A connections

**Dimensions:** Compatible with 2" and 2.1/2" couplings

### Applications

**Coupling and uncoupling fire hoses with Storz connection**

**Firefighting equipment in industrial, marine, and offshore environments**

**Maintenance and operation of emergency hydraulic systems**

### Benefits

**Readiness:** Allows quick and firm couplings with less physical effort

**Durability:** Robust cast brass construction for long-term use

**Safety:** Reduces the risk of damage to couplings and operator injuries

An essential tool to ensure efficiency and safety in firefighting system connections in accordance with maritime and industrial standards.

**Technical Specifications****Material:** Cast brass**Fasteners:** Not applicable**Dimensions:** For Storz 50A (2") and 65A (2.1/2") couplings

Model	ØD
50A	2"
65A	2.1/2"
