

Manual Bracket for EPIRB Tron 60S/60GPS

The MB-60 Manual Bracket is designed for Jotron Tron 60S and 60GPS EPIRB models, ensuring secure and convenient storage. Ideal for vessels, it offers flexible mounting and robust protection in marine environments.

COD EUROSUL:	003704
IMPA:	---
Part Number:	23-298A / 23-001-502A
Approvals:	---

Specifications

Features

- Material:** Built with high-durability materials to withstand maritime conditions
- Compatibility:** Compatible with Jotron Tron 60S and Tron 60GPS EPIRB
- Design:** Compact and lightweight, optimized for limited spaces
- Mounting:** Versatile bracket for installation on various surfaces

Applications

Use: Store and protect EPIRB on vessels, ensuring quick and safe access in emergencies

Benefits

- Readiness:** Ensures immediate access to the EPIRB in critical situations
- Durability:** Weather-resistant and saltwater-resistant construction
- Safety:** Protects the device, keeping it functional and accessible

Technical Specifications

- Material:** High durability, corrosion-resistant
- Compatibility:** Tron 60S and 60GPS
- Mounting:** Versatile
