Specifications

Features

Material: High buoyancy foam and durable polyester

Buoyancy: 150N

Closure: Adjustable waist with 40 mm buckle and double lock

Size: Adult – For users above 43 kg and chest up to 190 cm

Safety Devices

SOLAS whistle

High-visibility reflective tapes

LED signaling light (automatic and manual)

Rescue handle “LIFT LOOP”

Floating lifeline rope

Applicable Standards

SOLAS 74

MSC 200(80)

ISO 12402-7

MSC 207(81)

Applications

SOLAS vessels and ocean navigation

Maritime platforms and offshore operations

Rescue and safety in high-risk environments

Benefits

Readiness: Intuitive design for quick donning in emergency situations

Durability: Resistant to saltwater and harsh weather conditions

Safety: Fully compliant with international standards, ensuring excellent buoyancy and self-righting performance
