

Depth Measuring Tape with Aluminum Body – Flat Plumb (15M)

The 15-meter Depth Measuring Tape with Aluminum Body is a precise and durable measuring tool, suitable for demanding industrial environments. Its aluminum construction ensures enhanced corrosion resistance, making it ideal for areas with high humidity or chemical exposure. Equipped with a flat plumb for stability during measurement. Available in calibrated and non-calibrated versions (Inmetro).

COD EUROSUL: 094912

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features

Material: Corrosion-resistant aluminum

Fixings: Fixed flat plumb

Design: Compact, ergonomic, with manual rewind system

Availability: Models with and without Inmetro calibration

Applications

Liquid measurement in industrial tanks

Depth inspection in wells and vertical pipelines

Technical checks in offshore and industrial environments

Civil and industrial maintenance and inspections

Benefits

Readiness: ready-to-use tool for field operations

Durability: aluminum body ensures long-lasting performance

Safety: Inmetro-certified versions provide reliable accuracy

Technical Specifications

Material: High-resistance aluminum

Fixings: Fixed flat plumb

Dimensions: Available in multiple lengths

Certification: With or without Inmetro calibration
