

## UHF IS ATEX Portable Radio with Rechargeable Battery DT982 Entel

The UHF IS ATEX DT982 Portable Radio by Entel is designed to operate in demanding and hazardous industrial environments. With ATEX certification, this portable radio provides loud and clear audio, even in high-noise environments. Its IP68 rating ensures water resistance up to 2 meters in depth for 4 hours, allowing usage in extreme conditions. Additionally, it is ideal for users working with gloves due to its ultra-tactile buttons and high-torque controls. This model can be configured for both simple and advanced systems, meeting the needs for safety and reliable communication in industrial and maritime environments.
