

## Hydrostatic Release Unit for Housings Models FB-60/FB-40/FBH-40/FB-42/FBH-42

The Hydrostatic Release Kit (HRU) is designed for use with FB-60, FB-40, FBH-40, FB-42, and FBH-42 brackets. This spare part kit includes essential components such as the bolt, spacer, and hydrostatic release unit, ensuring safe and efficient operation.

**COD EUROSUL:** 003076

**IMPA:** ---

**Part Number:** 86218

**Approvals:** ---

## Specifications

### Features

**Material:** Made from high-strength, durable materials, ideal for maritime environments

**Fasteners:** Includes screw and spacer for easy installation

**Design:** Compact and functional, ensuring easy adaptation to compatible models

**Dimensions:** Designed for a perfect fit with the specified brackets

### Applications

**Use:** Employed in maritime safety equipment support systems, ensuring automatic release in emergency situations

### Benefits

**Readiness:** Automatic activation under hydrostatic submersion conditions

**Durability:** Corrosion-resistant material suitable for harsh marine conditions

**Safety:** Contributes to increased operational safety in emergencies, in compliance with international maritime standards

### Technical Specifications

**Material:** Corrosion-resistant

**Fasteners:** Screw and spacer included

**Dimensions:** Compatible with FB-60, FB-40, FBH-40, FB-42, and FBH-42 models
