

## WR3 built-in lamp w/ clip for life jacket-Daniamant (automatic)

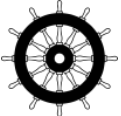

Set composed of WR3 built -in automatic light with integrated battery and compatible relegated clip of the Dan series. Developed for life jackets in accordance with sole standards, this kit ensures high visibility in maritime emergencies. WR3 is automatically activated at contact with water and the relegated clip ensures safe fixation on the vest, compatible with MR3 and WR3 models. Both components are designed for resistance in severe environments and approved by international certification bodies.

## Specifications

### Characteristics

Material: High-strength WR3 and durable technical plastic (clip)

Fixing System: Lightweight built-in fitting with integrated clip system; visible lens in the upper hemisphere with discreet assembly; low-profile and lightweight WR3 with optimized weight (6.1 g)

Clip Color: Blue

### Applications

Commercial, military, and offshore life Jackets

Emergency light with secure attachment to WR3 and MR3 rescue equipment

Reliable visual location in abandonment situations

### **Benefits**

Readiness: Immediate activation upon contact with water and quick, reliable installation

Clip: Made from salt-resistant materials, resistant to impact and thermal variations

Essential to comply with maritime safety standards, ensuring visibility, reliability, and secure installation

### **Technical Specifications**

Model: WR3

Type: Automatic intermittent light

Sealing: Polymer (IP68)

Material: High-resistance plastic (clip)

Autonomy:  $\geq 8$  hours (typical  $> 20$  hours)

Battery: Integrated Lithium IB048 (non-replaceable)

Service Life: 5 years

Operating Temperature:  $-1^{\circ}\text{C}$  to  $+30^{\circ}\text{C}$

Storage Temperature:  $-30^{\circ}\text{C}$  to  $+65^{\circ}\text{C}$

Weight: 6.1 g

Certifications: MEDB000060F, TAE00004FZ (DNV), USCG, Transport Canada, SOLAS
