

24V Battery Box for FSP127 Aldis

The C20177-01 Battery Box is designed for the FSP127 Aldis signaling lantern, ensuring reliable power with up to 2 hours of autonomy. Equipped with a 24V 7Ah lead-acid battery, it features an LED charge indicator for real-time monitoring. Built in the UK, it meets CE and SOLAS standards, making it ideal for maritime and offshore operations.

COD EUROSUL: 091010

Approvals:

Specifications

Features

Battery: Lead-acid, 24V, 7Ah

LED Indicator: Green (100%), Amber (50%), Red (Recharge)

Connector: 3-pin for secure connection

Certifications: CE and SOLAS compliant

Weight: 5.8 kg

Design: Robust case with treated wood base

Applications

Power supply for FSP127 Aldis signal lantern

Use in maritime and offshore operations

Benefits

Readiness: Status LED for continuous monitoring

Durability: Long service life and resistance to maritime environments

Safety:

Certified for safe use in maritime operations
