

## ACR 1102 Battery for EPIRB RLB-36/37/38

The ACR 1102 lithium battery is specifically designed for EPIRB models RLB-36, RLB-37, RLB-38, and RLB-41. It provides reliable and long-lasting performance, ensuring the EPIRB's operation during maritime emergencies.

Important: Battery replacement must be performed by an authorized agent. Otherwise, the manufacturer's warranty will be voided.

**COD EUROSUL:** 005071

**IMPA:** ---

**Part Number:** 1102

**Approvals:** ---

## Specifications

### Technical Features

**Battery Type:** Lithium

**Compatibility:** ACR EPIRBs models RLB-36, RLB-37, RLB-38, and RLB-41

### Benefits

**Reliability:** Provides continuous and stable power in critical situations

**Safety:** Meets the highest maritime standards, ensuring EPIRB activation in emergencies

**Durability:** Long service life for maximum operational efficiency

### Applications

Used in ACR EPIRBs RLB-36, RLB-37, RLB-38, and RLB-41 for safety and location at sea
