

Smoke Detector Test Aerosol 142mL SOLO

The Non-Flammable Smoke Detector Test Aerosol Spray SOLO A10 is a practical solution for fast, safe smoke detector testing. Ideal for onboard maintenance routines, it helps verify system operation with controlled application and minimal hassle.

COD EUROSUL: 001002

IMPA: 331075

Part Number: SOLOA10

Approvals: ---

Specifications

Overview

Pressurized aerosol for functional smoke detector testing, designed to support inspections and preventive maintenance. The can format allows controlled use in the field and onboard.

Application and use

Suitable for operational verification of smoke detectors during maintenance routines, with direct application to the sensor according to the equipment procedure.

Construction characteristics

Product type	Aerosol
Sub-item	SMOKE DETECTOR TEST
Identified manufacturer	Detectortesters / No Climb Products Ltd

Technical specifications

Model	SOLOA10
Capacity	142 mL

ERP dimensions	13 x 5 x 5 cm
Net weight	0.2 kg
Part number	SOLOA10

Performance

Recommended use	Functional testing of smoke detectors
Transport classification	UN1950
Transport hazard class	2.2

Compliance and certification

Standard / family	SOLAS
Standard / family	ABNT NBR 14725:2023

Marking and traceability

SKU	001002
IMPA	331075
Manufacturer part number	SOLOA10

Store in a dry, ventilated place away from excessive heat. Use according to the manufacturer's instructions and dispose of the container in line with local regulations.
