Mooring Signal Ball 600mm EMF

The round mooring signal ball is designed for daytime vessel signaling, offering clear visibility and easy onboard identification. Lightweight, foldable, and easy to handle, it is a practical choice for safer and more organized navigation routines.

COD EUROSUL:	000697
IMPA:	370581
Part Number:	360581
Approvals:	---

Specifications

Overview

Mooring signal ball for daytime vessel signaling, with a round shape and lightweight construction for onboard use.

Application and use

Designed for top suspension on masts or rigging, helping visually identify the vessel's mooring condition during daylight.

Construction characteristics

Material	durable nylon net and lightweight metal frame
Color	black
Shape	round
Fixing type	top suspension for masts or rigging
Foldable	Yes

Technical specifications

Diameter (mm)	600
Weight (kg)	1.1
Part number	360581
IMPA	370581

Handling, service life and disposal

Keep clean and dry after use, avoiding forced folding and prolonged contact with aggressive agents. Store in a protected place to preserve the net and metal frame. At end of service life, dispose of it according to applicable environmental practices for the material.
