Specifications

Overview

Fabric anchor buoy with a single-cone shape, developed for daytime signaling onboard. It is a visual identification item used during anchoring operations and to support navigation-area organization.

Application and use

Recommended for vessels that need to visually signal their anchoring condition during the day. Its shape supports quick recognition from a distance in port and navigation operations.

Construction characteristics

Length (cm)	62
Shape	single cone

Marking and traceability

SKU	000548
IMPA	370583

Handling, service life and disposal

Keep clean and dry after use, avoiding excessive folding and storage in damp areas. Inspect the fabric and seams regularly before each use cycle. At end of service life, dispose of it according to environmental practices and onboard procedures.
