Specifications

Overview

Emergency light stick for immediate visual signaling, with 360° illumination and 12-hour autonomy. It is a lightweight, compact solution for onboard use, survival kits, and situations where visibility needs to be quickly improved.

Application and use

Suitable for emergency signaling, location support, and visual marking in maritime and safety operations. The hook makes it easy to secure in strategic points, while the waterproof body increases usefulness in humid or exposed environments.

Construction characteristics

Material	Non-toxic
Finish	Non-flammable
Mounting	With hook
Protection	Waterproof

Technical specifications

Product type	Emergency light stick
Length	15 cm
Diameter	2 cm
Weight	20 g
Operating time	12 hours
Operating temperature	-30°C to 50°C

Compliance and certification

EN/ISO/IEC	ABNT NBR 14725:2023

Marking and traceability

SKU	093040
IMPA	330602

Handling, service life and disposal

Store in a dry place, away from excessive heat and direct sunlight. The stated shelf life is 4 years; after that period, replace the item according to vessel safety procedures and dispose of it in line with applicable local regulations.
