Specifications

Overview

Emergency chemical light stick for immediate signaling in low-visibility conditions or rescue operations. It delivers 360° light for up to 12 hours and is suitable for quick use without electrical power.

Application and use

Used in survival kits, rescue gear and emergency signaling on board or on land. Tube-bending activation makes it easy to use in critical situations, and the integrated hook helps with fastening.

Construction characteristics

Material	Waterproof body
Finish	Non-toxic and non-flammable
Color	Red
Fixing	Integrated hook

Technical specifications

Product type	Chemical light stick
Length	15 cm
Diameter	2 cm
Weight	20 g
Operating time	12 h
Operating temperature	-30°C to 50°C

Compliance and certification

EN/ISO/IEC	EN 71-1; EN 71-2; EN 71-3

Marking and traceability

SKU	093038
IMPA	330602

Handling, service life and disposal

Store in a dry place, away from excessive heat and direct sunlight. Shelf life is 4 years; after use or at end of life, dispose of it according to local rules for chemical waste and packaging.
