Specifications

Overview

Marine binoculars with 7x magnification and a 50 mm objective lens, designed for bridge observation and outdoor use. They combine an integrated compass, rangefinder scale and fully multi-coated optics to support visual reading during navigation.

Application and use

Suitable for onboard use, navigation support and long-distance observation in marine environments. The 3.5 m close focus, 396 ft/1000 yd field of view and focus/diopter adjustment make it practical in different operating situations.

Construction characteristics

Body	Rubber armored
Prism system	BAK-4 Porro
Optical coating	Fully multi-coated
Color	Army green

Eyecups	Foldable

Technical specifications

Magnification	7x
Objective lens	50 mm
Eyepiece diameter	25 mm
Eye relief	19 mm
Close focus distance	3.5 m
Weight	0.9 kg
Dimensions	200 x 145 x 65 mm

Performance

Field of view	396 ft/1000 yd
Fog proof	Yes
Waterproof	Yes
Rangefinder	Yes
Integrated compass	Yes
Tripod adaptable	Yes

Marking and traceability

SKU	000497
IMPA	370345
Model	BOSTRON 7X50

Handling, service life and disposal

Keep the binoculars clean and dry after use, avoiding impacts and prolonged storage in humid areas. To preserve the optics, clean the lenses gently and store the unit in its case when not in service. At end of life, dispose of it according to applicable environmental practices for optical equipment and

plastic/metal components.
