Specifications

Overview

Replacement windsock cone used to keep wind direction indication clear and visible. It is a practical spare part for day signals and flag systems.

Application and use

Suitable for marine and offshore environments where visual wind indication must remain reliable and operational. Installation is made easier by the fixing eyelets.

Construction characteristics

Material	Resin-coated nylon
Color	Orange
Waterproof	Yes
Reinforced seams	Yes
Has fixing eyelets	Yes

Technical specifications

Length	120 cm

Inlet mouth diameter	60 cm
Outlet mouth diameter	30 cm
Part number	90623
IMPA	371589

Handling, service life and disposal

Store in a dry place and protect from prolonged sunlight when not in use. Service life depends on operating conditions and maintenance; replace the cone if wear, tears, or loss of fastening performance appear. Dispose of it according to applicable environmental practices for synthetic textile materials.
