Specifications

Overview

Circular lifebuoy for deck use, model RS5555-I, designed to be part of the vessel's lifesaving equipment set. Its HDPE construction with polyurethane filling combines durability and buoyancy, while the grab lines and reflective strips support rescue handling and visibility.

Application and use

Suitable for installation on deck areas where it must be ready for quick deployment in emergency situations. It is a practical choice for vessels that require lifesaving equipment compliant with SOLAS/MED requirements.

Construction characteristics

Material body	HDPE
Internal filling	Polyurethane
Body color	Orange
Has grab lines	Yes

Has reflective strips	Yes
-----------------------	-----

Technical specifications

Model	RS5555-I
Outer diameter (cm)	70
Inner diameter (cm)	45
Nominal weight (kg)	2.5
Approximate weight (kg)	2.84

Performance

Drop height (m)	80
-----------------	----

Compliance and certification

SOLAS	Cap. III Reg. 4, 7, 34; X/3; MSC.48(66)
MED	MED/1.1; Module B/D
DNV	Certificate of Assessment; EC Type Examination

Marking and traceability

SKU	002666
IMPA	330159

Handling, service life and disposal

Store in a dry, clean place protected from impacts and prolonged sun exposure. Before use, check the integrity of the body, grab lines, and reflective strips. Replace the item if deformation, cracks, or excessive wear are found, and dispose of it according to environmental rules and vessel procedures.
