Specifications

Overview

DATREX DX0340D circular lifebuoy for bridge use, designed for fast response in man-overboard situations and other onboard emergencies. Its high-strength polyethylene body and closed-cell foam filling help maintain performance and buoyancy in marine service.

Application and use

Suitable for vessels that need an easy-to-access circular lifebuoy with grab line and reflective strips for better visibility. The international orange color supports quick identification during day and night operations.

Construction characteristics

Body material	High impact linear low-density polyethylene
Internal filling	Closed-cell polyurethane plastic foam
Body color	International orange
Grab line	Yes
Reflective strips	Yes

Technical specifications

Model	DX0340D
Outer diameter (cm)	76
Nominal weight (kg)	4
Product class	Bridge
Drop height (m)	100

Compliance and certification

SOLAS	LSA Code; MSC.481(102)
MED	MED/1.1; Module B; Module D
USCG	160.050/128/0; 160.150/5/0

Marking and traceability

SKU	000603
Part number	DX0340D
IMPA	330152

Handling, service life and disposal

Store in a dry place, protected from impact and unnecessary sun exposure. Inspect the body, grab line and reflective strips regularly before use. At end of service life, dispose of the product according to environmental rules and vessel procedures.
