Specifications

Overview

RS5555-II circular lifebuoy designed for use on vessels and waterside access areas. Its HDPE body and polyurethane filling provide a durable lifesaving solution for onboard emergency readiness.

Application and use

Used as lifesaving equipment on board, especially at the gangway, ship side and other points where the lifebuoy must be ready for quick deployment. The orange color, reflective strips and grab lines improve visibility and handling in emergencies.

Construction characteristics

Body material	HDPE
Internal filling	Polyurethane
Color	Orange

UV protection	Yes
Grab lines	Yes

Technical specifications

Model	RS5555-II
Nominal weight	4.3 kg
Approximate weight	4.7 kg
Outer diameter	72 cm
Inner diameter	45 cm
Thickness	110 ± 5 mm
Maximum drop height	80 m

Compliance and certification

SOLAS	Ch. III Reg. 4, 7, 34; X/3; MSC.48(66); MSC.81(70)
MED	MED/1.1; Module D

Marking and traceability

SKU	004282
IMPA	330160
Model	RS5555-II

Handling, service life and disposal

Store in a dry place, protected from impacts and prolonged sun exposure when not in use. Inspect grab lines, reflective strips and body integrity regularly before keeping the unit in service. At end of life, dispose of it according to environmental practices and vessel procedures.
