Specifications

Overview

Ritchie B-51 magnetic navigation compass for small and medium-sized vessels, suitable as a primary or auxiliary compass. It provides direct and clear reading, with built-in compensators for fine navigation adjustment.

Application and use

Designed for bracket mounting, it is suitable for console or helm installation, with 12V lighting for night use. The internal fluid helps damp vibration and the impact-resistant dome supports marine operation.

Construction characteristics

Color	BLACK
Mounting type	bracket mount
Built-in compensators	Yes
Vibration damping fluid	Yes
Impact-resistant dome	Yes

Technical specifications

Model	B-51
Dial diameter	76 mm
Weight	0.45 kg
Lighting voltage	12 V
Intended use	small and medium-sized vessels; primary or auxiliary compass

Marking and traceability

SKU	090817
Part number	B-51
IMPA	330211

Handling, service life and disposal

Install in a firm location away from magnetic interference to preserve reading accuracy. Routine cleaning with a soft dry cloth is sufficient; avoid impacts and unnecessary exposure to excessive heat. At end of life, dispose of it according to applicable environmental practices for marine and electronic components.
