Specifications

Overview

KENPO rotary disc head for the KP-50 rust removal machine, identified by PN 591255. It is a compact component designed to support cleaning and metal surface preparation tasks.

Application and use

Suitable for rust removal and metal surface preparation in maintenance routines. It is intended for equipment compatible with the KP-50 line.

Construction characteristics

Model	KP-50
Width (cm)	10
Height (cm)	10
Length (cm)	11
Net weight (kg)	1.34

Technical specifications

Manufacturer part number	591255
Compatible series	KP-50
Application	Rust removal and metal surface preparation

Marking and traceability

SKU	096463
Part number	591255
IMPA	591255

Handling, service life and disposal

Store in a dry, protected place to preserve the component and avoid damage before installation. Visual inspection before use is recommended, and replacement should be made when wear affects operation. Dispose of it according to internal procedures for metal components and maintenance parts.
