

Entel CMP/DT5 EX IECEX Microphone

The Entel CMP/DT5 EX IECEX Microphone ensures safe communication in noisy and hazardous environments. With IECEx certification and a robust swivel clip, it offers convenience and durability in extreme conditions, allowing seamless calls without removing the radio.

COD EUROSUL: 011100

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features

Certification: IECEx certified for safe use in potentially explosive atmospheres.

Attachment: Durable swivel clip for practical and secure handling.

Durability: Rugged design for industrial and maritime environments.

Communication: Enables clear and continuous operation without removing the radio.

Benefits

Safety: Certified for hazardous areas, ensuring protection and reliability.

Efficiency: Provides uninterrupted, clear communication in noisy settings.

Strength: Built for heavy-duty performance under extreme conditions.

Applications

Industrial, offshore, and maritime environments requiring safe and reliable communication.

Technical Specifications

Certification: IECEx

Attachment: Robust swivel clip

Environments: Noisy and high-risk

Durability: Rugged construction
