PWSS HAND FLARE RED 1MIN MK8 9529000 15000 CANDELA – SOLAS/MED

The Wescom Red Hand Flare MK8 is a pyrotechnic signaling device used to indicate emergency situations at short distances, both during the day and night. Emitting a bright red light for a minimum of 60 seconds, it is widely adopted for maritime rescue operations and lifeboats. The product is fully compliant with international maritime safety standards, including SOLAS and MED.

COD EUROSUL:	004469
IMPA:	330314 – RED HAND FLARE MK8 PAINSWESSEX, 9529000 SOLAS/MED APPROVED
Part Number:	MK8 - NP: 9529000

Approvals:

SOLAS

Specifications

Pyrotechnic Composition

Illuminating mixture: Strontium nitrate, magnesium powder, gilsonite, linseed oil, PVC, potassium nitrate, potassium perchlorate, dibutyl phthalate, and gunpowder

Igniter: Thermal mixture with lead tetroxide and metal powder

Technical Features

Certifications: SOLAS, MED, DPC/Norma 05, Item 118, USCG MRA Feb/2004, MED Wheel Mark, INMETRO ECA-0736, Germanischer Lloyds

Dimensions: 175/280 mm x 28 mm

Weight: 160 g
Burn time: Minimum 60 seconds
Luminous intensity: 15,000 candelas
Storage temperature: -30 °C to 65 °C

Applications

Essential equipment for lifeboats and rescue vessels
Ideal for maritime and coastal emergency signaling
Used by crews, passengers, offshore operations, and recreational activities

Benefits

high visibility at short distance
resistant to harsh environments and waterproof
international certification for maritime use
