

Electric Scaling Machine KP-50 110V

The Electric Scaling Machine For Deck KP-50 110V by CHUTUO is a practical solution for onboard surface cleaning and preparation. Compact and robust, it helps keep the deck in good condition with greater efficiency in operational work. For rust removal and surface cleaning on deck, used in surface preparation before painting and maintenance.

COD EUROSUL:	096458
IMPA:	591217
Part Number:	KP-50 - Kenpo
Approvals:	---

Specifications

Features:

Model: KP-50 – 110V
Body Material: High-strength steel with protective coating
Work Capacity: Approx. 20–25 m²/h
Weight: 4.5 kg
Speed: 3,500 rpm
Power Supply: Electric – 110V
Certification: CE

Applications:

Rust removal on ship decks and marine vessels
Surface preparation for painting
Offshore platform and shipyard maintenance
Cleaning of industrial metal structures exposed to weather

Benefits:

Efficiency: Fast and effective rust and incrustation removal
Durability: Reinforced structure for heavy-duty use
Portability: Lightweight and easy to handle

Safety: CE certified for international maritime use

Technical Specifications:

Model: KP-50

Voltage: 110V

Speed: 3,500 rpm

Weight: 4.5 kg

Work Capacity: 20–25 m²/h

Certification: CE
