

DEFA 703789 Battery Charger Power Supply 2x7A 14.4VDC

The DEFA 703789 power supply/battery charger is designed for efficient charging of batteries used in survival craft, lifeboats, and marine emergency systems. Operating with a 36–62VAC input, it delivers a 2 x 14.4VDC output with 2 x 7A charging current, providing stable and reliable charging for batteries up to 120Ah. This model replaces the DEFA 700110 charger, offering higher charging capacity and improved performance for marine and offshore applications. Its robust construction ensures dependable operation in demanding maritime environments.

COD EUROSUL: 097234

IMPA: ---

Part Number: ---

Approvals:

Specifications

Applications:

Lifeboats and survival craft
Marine emergency systems
Battery charging in offshore and naval environments

Technical Specifications:

Model: DEFA 703789
Type: Power supply / battery charger
Input: 36–62VAC
Output: 2 x 14.4VDC

Charging current: 2 x 7A

Recommended battery capacity: up to 120Ah

Application: Marine and survival craft systems

Replacement for: DEFA 700110 (2 x 5A)
