Specifications

Overview

Wireless test kit for smoke and heat detectors, designed to support functional checks with practicality. The SOLO 851 set brings together the accessories needed for field use, with reach of up to 7 m.

Application and use

Suitable for preventive maintenance and operational testing of detectors in hard-to-reach areas, including onboard environments. The kit helps crews perform checks faster and in a more organized way, reducing the need for improvisation.

Construction characteristics

Model	SOLO 851
Part number	SOLO 851
Included components	1 x SOLO 100 15FT 4.5 meter access pole; 1 x SOLO 101 4FT extension pole; 1 x SOLO 200 universal removal tool; 1 x SOLO 330 dispenser; 1 x SOLO 460 heat detector tester; 1 x SOLO 610 carrying bag; 1 x SOLO 727 battery charger; 2 x SOLO 770 battery batons

Technical specifications

Maximum reach (m)	7
Height (cm)	28
Length (cm)	134
Width (cm)	46
Net weight (kg)	11.96

Marking and traceability

SKU	004760
IMPA	331080

Handling, service life and disposal

Store the kit in a dry, protected place after use, keeping the components organized in the carrying bag. To preserve performance, follow the operating and charging instructions for the accessories and replace worn parts when needed. Disposal should follow the applicable practices for electronic components and batteries.
