Specifications

Overview

Wireless portable kit for testing heat and smoke detectors, intended for maintenance and functional verification of detection systems.

Application and use

Used during onboard inspections and in technical areas to activate and test heat and smoke detectors with reach up to 6 m.

Construction characteristics

Material	fiberglass
Sub-item	WIRELESS
Power supply	battery
Number of sections	4

Technical specifications

Model	SOLO 822

Maximum reach (m)	6
Net weight (kg)	8
Included components	SOLO 460 heat detector test unit; SOLO 330 smoke dispenser; SOLO 100 telescopic pole in fiberglass with 4 sections; SOLO 101 fiberglass pole extension; SOLO 200 remover tool; SOLO 727 battery charger; 2 x SOLO 770 battery baton; SOLO 610 carrying bag

Marking and traceability

SKU	091336
IMPA	331080

Handling, service life and disposal

Store the kit clean and dry after use, protecting the telescopic components and battery. For longer service life, follow the manufacturer’s instructions for charging, transport, and replacement of consumable parts.
