Specifications

Overview

Wireless portable kit for testing and removing heat and smoke detectors, designed to support preventive maintenance with reach up to 9.3 m.

Application and use

Suitable for elevated inspections and onboard maintenance routines, helping technicians test detectors more practically in hard-to-reach areas.

Construction characteristics

Power supply	Rechargeable lithium-ion battery
Sub-item	Wireless
Included components	1 x Solo 100 15 ft access pole; 3 x Solo 101 4 ft extension poles; 1 x Solo 200 universal removal tool; 1 x Solo 330 dispenser; 1 x Solo 460 heat detector tester; 1 x Solo 610 carrying bag; 1 x Solo 727 battery charger; 2 x Solo 770 battery batons

Technical specifications

Model	SOLO 823
Part number	SOLO823-001
Manufacturer part number	SOLO823-001
Maximum reach (m)	9.3
Height (cm)	28
Length (cm)	134
Width (cm)	46
Net weight (kg)	14

Marking and traceability

SKU	004604
IMPA	331080
Part number	SOLO823-001

Handling, service life and disposal

Store the kit in a dry, protected place after use and keep the components organized in the carrying bag. The rechargeable lithium-ion battery should be charged according to the manufacturer's operating routine and disposed of through an appropriate battery recycling stream at end of life.
