Specifications

Overview

Wireless portable kit for testing smoke, heat and CO detectors. It is designed to support quick inspections and field maintenance, with practical operation and all key components gathered in one solution.

Application and use

Suitable for functional checks of detectors during preventive maintenance, inspection and commissioning routines. The clearing mode helps reduce the risk of false alarms during testing, while battery power improves mobility on board or in areas without nearby mains supply.

Construction characteristics

Power supply	Rechargeable battery with mains and car charger
Sub-item	WIRELESS
Model	TESTIFIRE 2001
Clearing mode	Yes
Compatibility	Compatible with Solo access poles and Testifire TS3 and TC3 capsules

Technical specifications

Length (cm)	55
Width (cm)	22
Height (cm)	17
Net weight (kg)	3.48
Maximum test temperature (°C)	100

Marking and traceability

SKU	091269
Part number	TESTIFIRE2001-001
IMPA	331080

Handling, service life and disposal

Store the kit in a dry, protected place after use, keeping capsules and accessories according to the manufacturer’s instructions. To preserve performance, recharge the battery regularly and replace consumables when needed. Dispose of components and batteries in accordance with applicable environmental and waste regulations.
