Specifications

Overview

Complete CXD8 daylight lamp for ship-to-ship daytime signalling, supplied with power box/charger, cable and spare kit. It is a ready-to-use solution for operations that require strong and reliable visual communication.

Application and use

Designed for daytime signalling between vessels, supporting manoeuvres and visual communication in coastal and offshore navigation. The complete set makes onboard use straightforward and keeps the equipment ready when needed.

Construction characteristics

Sub-item	COMPLETA
Model	CXD8

Light source	LCY24-60C tungsten halogen lamp
Lamp socket	G6.35
Ingress protection rating	IP66

Technical specifications

Tensao nominal (V)	24
Power (W)	60
Luminous intensity (cd)	60000
Visible distance (nautical mile)	2
Cable length (m)	5

Performance

Charging time (h)	10
Discharge time (h)	2
Battery capacity (Ah)	6
Beam angle (°)	6
Steering compass safe distance (cm)	45

Compliance and certification

SOLAS	Reg. V/18, V/19 and X/3
MED	MED/4.52; Module B/D
USCG	165.166/EC2676 /CCSG18MEDB017 /EC0575
Class	DNV; RINA

Marking and traceability

SKU	091069
IMPA	330641

Handling, service life and disposal

Store the set in a dry, protected place when not in use to preserve the battery and kit accessories. Periodically inspect the cable, connectors and spare bulb, and dispose of electrical components and batteries according to onboard environmental procedures.
