

Linethrower 250 Complete with Rocket, Line & Cartridge – SOLAS/USCG/MED Certified

The Linethrower 250 is a maritime safety device designed to launch a 4 mm line from one ship to another, from ship to shore, or to rescue a swimmer in distress. The unit is operated with a swivel handle, ensuring reliable range and accuracy. According to SOLAS regulations, ships are required to carry 4 units onboard, ensuring compliance and safety during emergencies.
