Specifications

Overview

Spare pressure gauge for SCBA, intended for replacement in RHZK self-contained breathing apparatus. The component provides pressure reading within the 0 to 40 MPa range.

Application and use

Used in RHZK-compatible SCBA sets as a replacement part for corrective or preventive maintenance. It helps maintain the operational continuity of the self-contained breathing apparatus.

Construction characteristics

Type of part	Pressure gauge
Sub-item	Spare
Compatibility line	RHZK

Technical specifications

Pressure range	0-40 MPa
Application	SCBA

SKU	003828
-----	--------

Compliance and certification

Certificate of conformity	FALCÃO BAUER
---------------------------	--------------

Marking and traceability

Brand	FANGZHAN
SKU	003828

To preserve performance, installation by a qualified professional and periodic inspection of the SCBA set are recommended. Store in a clean, dry place, protected from impact and contamination; at end of service life, dispose of it according to the procedures applicable to safety equipment.
