Pulley 50mm EMF

The 1-sheave brass pulley is a compact solution for guiding and supporting lines on board, especially in flag and day-signal applications. With a 50 mm diameter, it offers simple operation and a durable finish for marine use.

COD EUROSUL:	003623
IMPA:	371586
Part Number:	---
Approvals:	---

Specifications

Overview

1-sheave brass pulley for guiding and supporting lines in deck and navigation applications.

Application and use

Used in flag systems and line lead points where smooth running and a compact fitting are required.

Construction characteristics

Field	Value
Material	brass
Number of sheaves	1
Sub-item	1 sheave

Technical specifications

Field	Value
Diameter (mm)	50
Length (cm)	11

IMPA	371588
SKU	001306

Handling, service life and disposal

Inspect regularly for wear, looseness, and surface corrosion. Keep clean and dry when not in use, and replace the item if deformation or jamming is observed. Dispose of the metal component according to local recycling practices.
