Specifications

Overview

Water finding paste in a 75 g pack, designed to indicate the presence of water, oil or gasoline in ship tanks. Reading is visual, with a color change from brown to pink at the contact point.

Application and use

Suitable for routine inspections in tanks and compartments where liquid levels must be confirmed by direct contact. The semi-solid formulation makes it easy to apply on a sounding rod or tape.

Construction characteristics

Material	Semi-solid paste
Supply format	Paste
Capacity (mL)	75
Mass (g)	75
Net weight (kg)	0.8

Technical specifications

Recommended use	Detection of water, oil or gasoline level in ship tanks

Color change on detection	Brown to pink
Water solubility	Partially soluble
Flammability	Low
Volatility	None

Performance

Boiling point (°C)	100
Non-hazardous	Yes

Marking and traceability

SKU	000361
IMPA	650890

Store in a dry place away from excessive heat. After use, keep the container tightly closed to preserve product consistency and dispose of it according to applicable local practices.
