

Accommodation Ladder Safety Nets

Safety net designed for gangway ladders, ensuring protection against accidental falls onto the deck, into the water, or onto the dock.

Mandatory use according to the Code of Safe Working Practices for Merchant Seafarers (2006).

Manufactured from polypropylene (PP) with 8 mm diameter ropes, 150 mm mesh, and available in three sizes: 5x10 m, 4x16 m, and 4x25 m.

COD EUROSUL: 000372

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features

Material: Polypropylene (PP)

Mesh Size: 150 mm

Rope Circumference: 10 mm Ø

Rope Description: 8 mm Ø

Available Sizes: 5x10 MT (IMPA 232161), 4x16 MT (IMPA 232162), 4x25 MT (IMPA 232163) and 4x20 MT (IMPA 232162)

Applications

Used for gangway stair safety to prevent falls during boarding and disembarkation on national and international vessels

Benefits

readiness: easy to install and adaptable to any gangway

durability: made from resistant material for maritime conditions, compliant with SOLAS 1974 and Brazilian DPC standards

safety: significantly enhances the protection of passengers and crew

Compliant with the LSA Code for life-saving appliances and SOLAS maritime safety regulations
