Portable UHF Radio 450-470MHz ENTEL UK

Portable UHF radio with battery, ideal for reliable onboard and offshore communications. Compact, rugged and IP68 protected, it is designed for consistent performance in demanding environments.

COD EUROSUL:	005387
IMPA:	---
Part Number:	HT783M

Approvals:

CE

Specifications

Overview

Portable UHF radio with battery for operational communications onboard and in offshore environments. The HT783M combines rugged construction, analogue operation and IP68 protection for reliable use in demanding routines.

Application and use

Suitable for team communications on ships, terminals and maritime operations where water resistance and portability are essential. The locking accessory connector helps keep the connection secure during use.

Construction characteristics

Product type	Portable
Sub-item	With battery
Model	HT783M
Protection	IP68

Accessory connector	Locking

Technical specifications

Frequency range	450-470 MHz
Operating mode	Analogue
Channels without LCD	16
Programmable channels	255
Maximum submersion	2 m
Submersion time	4 h

Performance

Impact protection	Yes
Submersible	Yes
Approximate weight	0.86 kg

Compliance and certification

EN/ISO/IEC	MIL-STD 810C/D/E/F

Marking and traceability

SKU	005387
Model	HT783M

Simple to maintain, with use recommended according to the manufacturer's operating and storage conditions. After exposure to salt water, external cleaning and drying are recommended before storage.
