Specifications

Overview

Portable VHF radio for onboard marine communication, with a rechargeable battery and analog operation. The HT644 combines a compact form factor, good endurance, and high protection for daily use in nautical environments.

Application and use

Suitable for crew communication, operational support, and routine coordination on vessels. It can be used on international, USA, and Canada marine channels, depending on the equipment configuration.

Construction characteristics

Radio product type	portable
Battery type	lithium-ion
Battery capacity (mAh)	2200
Includes charger	Yes

Includes swivel belt clip	true
---------------------------	------

Technical specifications

Model	HT644
Battery voltage (V)	7.6
Output power (W)	5
Audio output power (mW)	500
Channel groups	INT, USA and CAN
Marine channels	INT, USA and CAN
IP rating	IP68
Maximum submersion (m)	2
Maximum submersion time (min)	240

Performance

Nominal battery life	14.5 hours in 5/5/90 duty cycle
Scan function	active channel scan
Impact protection	Yes

Compliance and certification

ANATEL	Homologation No. 09224-24-03171
EN/ISO/IEC	EN 301 178; EN 301 843-1; EN 301 843-2; EN 62368-1

Marking and traceability

SKU	090128
IMPA	370115

Handling, service life and disposal

Keep the unit clean and dry after use, especially after exposure to salt water. The rechargeable battery should be charged according to the manufacturer's instructions and disposed of through an approved electronic waste and battery collection point.
