Specifications

Overview

Passive radar reflector for vessels, model RDF400 by EMF, designed to improve radar detection during navigation and emergency situations.

Application and use

Used on vessels and lifesaving equipment, especially lifeboats and liferafts, to increase radar echo and support easier location.

Technical specifications

Model	RDF400
Sub-item	PASSIVE
Minimum mounting height	2 m
Minimum radar cross section	40 m ²

Net weight ERP	1.28 kg
----------------	---------

Compliance and certification

SOLAS	MSC.164(78)
CCS	Certificate of Type Approval

Marking and traceability

SKU	002860
IMPA	330190

Handling, service life and disposal

Install according to the recommended minimum height to ensure expected performance. Keep the unit clean and periodically inspect the mounting and overall condition. At end of service life, dispose of it according to environmental practices and vessel procedures.
