Specifications

Overview

Aerosol dust remover designed for cleaning detectors and other sensitive equipment. Its 1,1-difluoroethane formulation provides a practical solution for routine maintenance in operational environments.

Application and use

Suitable for removing dust from electronic components, detectors and hard-to-reach areas, especially onboard. The 10 oz aerosol format makes it easy to handle for spot cleaning during inspections and preventive maintenance.

Construction characteristics

Material	1,1-Difluoroethane
Supply format	Aerosol 10 oz
Net weight (kg)	0.38
Maximum storage temperature (°C)	50

Technical specifications

Model	Blow Out Duster 152A
Width (cm)	7
Length (cm)	22
Height (cm)	22

Handling, service life and disposal

Store in a ventilated place, away from heat and ignition sources, respecting the maximum temperature stated. As this is a flammable aerosol, follow vessel safety procedures and dispose of the container according to applicable local regulations.
