

SAILOR RT6249 Fixed VHF Radio IPX8

The SAILOR RT6249 fixed VHF radio is specifically designed for installation aboard survival craft, providing reliable communication in maritime emergency situations. Compact and rugged, the unit is MED Wheelmark approved and complies with ETSI EN 301 466 standards for marine applications. Built for harsh marine environments, the SAILOR RT6249 features IPX6 and IPX8 waterproof protection, ensuring dependable operation in extreme conditions. Its 6W VHF communication system delivers reliable performance for rescue boats and survival craft. The package includes the VHF transceiver unit, SAILOR 6202 hand microphone, U-bracket, flush mounting kit, power cable, 24V to 12V DC power converter, and user manual.
