

## SCBA RHZK Back Harness + Valve + Mask Certified by DNV and CA-MTE

English: The SCBA (Self-Contained Breathing Apparatus) RHZK is designed to provide respiratory protection in hazardous environments. Comprising a back harness, valve, and face mask, this SCBA is ideal for firefighting, chemical industries, naval operations, and mining environments. When paired with a 300 bar/6.8-liter cylinder (not included), the system offers approximately 45 minutes of breathable air.

**COD EUROSUL:** 000544

**IMPA:** ---

**Part Number:** ---

**Approvals:**

## Specifications

### Features:

**Face mask:** made of butyl rubber for tight sealing and durability

**Head harness:** adjustable silicone, lightweight and comfortable for extended use

**Low-pressure alarm:** audible alert between 5–6 MPa for enhanced safety

**Certifications:** SOLAS, RINA, CCS, and CE, compliant with international maritime safety standards

### Benefits:

**Respiratory safety:** reliable protection in critical or contaminated environments

**Durability:** built with long-lasting, high-resistance materials

**Reliability:** internationally certified equipment for professional use

### Applications:

Firefighting

Naval and offshore operations  
Chemical and petrochemical industries  
Mining and low-oxygen environments

**Technical Specifications:**

**Face mask:** butyl rubber

**Harness:** adjustable silicone

**Alarm:** 5–6 MPa

**Certifications:** SOLAS, RINA, CCS, CE

**Compatibility:** 6.8 L / 300 bar cylinder (not included)
