

SCBA Breathing Apparatus Set RHZK 45min 300bar 6L with Mask and Harness Fangzhan SOLAS

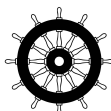

The SCBA RHZK 45min 300bar 6L Set with Mask and Harness by Fangzhan is an essential component for self-contained breathing apparatus (SCBA), designed to withstand extreme conditions during rescue operations and firefighting activities. Built from high-strength steel, this cylinder provides the user with a continuous and reliable air supply, offering up to **45 minutes of autonomy**, making it ideal for critical scenarios where respiratory safety is essential.

COD EUROSUL: 002845

IMPA: ---

Part Number: ---

Approvals:

SOLAS

Specifications

Features:

Certifications: RINA, SOLAS

Compatibility: spare cylinder for SCBA RHZK-6/30 model

Capacity: 6 liters of compressed air rated up to 300 bar

Material: high-strength steel for durability and reliability

Duration: provides up to 45 minutes of breathable air

Benefits:

Safety: ensures a continuous and reliable air supply during emergencies

Performance: withstands high pressure and harsh operating conditions

Reliability: ideal for firefighting and rescue operations

Technical Specifications:

Compatibility: SCBA RHZK-6/30

Capacity: 6 L

Max pressure: 300 bar

Duration: up to 45 min

Material: high-strength steel
