

SCBA Steel Spare Cylinder RHZK 45min 300bar/6.0L Fangzhan/SOLAS

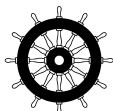

The SCBA Steel Spare Cylinder RHZK 45min 300bar/6.0L by Fangzhan is a vital component for self-contained breathing apparatus (SCBA), specifically designed for rescue and firefighting operations in extreme conditions. Made from high-strength steel, this cylinder offers a reliable and continuous supply of breathable air, ensuring operator safety in hazardous environments. Fully compliant with SOLAS regulations, it is certified by RINA, CE, and CCS, meeting stringent international safety standards.

COD EUROSUL: 003961

IMPA: 330426

Part Number: ---

Approvals:

SOLAS

Specifications

Features:

Compatibility: spare part for SCBA model RHZK-6/30 (Fangzhan)

Capacity: 6 liters of compressed air

Maximum pressure: 300 bar

Material: high-strength steel for heavy-duty use

Operating time: up to 45 minutes of breathable air

Benefits:

Safety: delivers continuous, reliable air in critical emergencies

Performance: withstands high pressure and extended use

Reliability: ideal for firefighting, rescue, and hazardous environments

Technical Specifications:

Certifications: CE, RINA, CCS (SOLAS compliant)

Compatibility: SCBA RHZK-6/30

Capacity: 6 L

Max pressure: 300 bar

Duration: 45 min

Weight: 10 kg

Material: high-strength steel
