

Harvik 9687L firefighter rubber boot – SOLAS/MED certified

The Harvik 9687L firefighter boot is a SOLAS/MED certified personal protective equipment designed for firefighting on commercial, naval, and offshore vessels. Made from rubber with high resistance to elevated temperatures, chemical liquids, and impacts, it meets the mandatory requirements of IMO/SOLAS international standards for maritime safety. Recommended for emergency operations and onboard fire brigades, it provides protection, grip, and durability under the most demanding conditions at sea.
