Specifications

Overview

Spare SOLO 200 detector removal tool designed to support maintenance operations with practical, secure adjustment. Its multi-position locking head helps adapt the tool to different detector sizes.

Application and use

Used during inspection, replacement and maintenance routines when detectors need to be removed quickly and with control. It is compatible with most detectors, which makes it suitable for a wide range of installations.

Construction characteristics

Model	SOLO 200
Sub-item	SPARE
Has multi-position locking head	Yes

Technical specifications

Height (cm)	13
Length (cm)	35

Width (cm)	28
Net weight (kg)	1.46
Compatibility	Compatible with most detectors

Handling, service life and disposal

Keep the tool clean and store it in a dry place after use. As a spare maintenance item, service life depends on operating conditions and care; at end of life, dispose of it according to applicable environmental practices for the product material.
