

Storz Key For Hose 40A – 1.1/2 “(40mm)”

The Storz 40A Spanner Wrench is an essential tool for coupling and decoupling quick-connect firefighting hose fittings. Designed for 1.1/2" (40mm) Storz-type connectors, it ensures safe and efficient operation in fire suppression systems. Built from durable materials with a functional finish, it is suitable for industrial, marine, and civil protection environments.

COD EUROSUL: 001130

IMPA: 330797

Part Number: ---

Approvals: ---

Specifications

Features

Material: High-durability cast brass

Fasteners: Not applicable

Design: Ergonomic tool for Storz 40A couplings

Dimensions: Compatible with 1.1/2" (40mm) connections

Applications

Coupling and uncoupling fire hoses with Storz connection

Hydrant systems and firefighting networks

Industrial, marine, offshore, and civil environments

Benefits

Readiness: Ensures quick hose connection and disconnection in critical situations

Durability: Robust construction for frequent field use

Safety: Prevents damage to connections and reduces operator physical effort

Designed to suit various hydrant and coupling configurations, the Storz 40A wrench is a practical and reliable solution for emergency operations.
